Hebron CT 06248

To whom it may concern,

I strongly oppose SB 874, especially sections 17 and 18. Please preserve the current constitutional right to the freedoms and benefits that allow homeschoolers to educate their children as they see best.

We pay our taxes and ask for nothing from our school district. I believe it is wasteful, discriminatory, and an unnecessary intrusion into our personal privacy to expect us to appear in person annually to register as homeschoolers. We do not need to waste the money and resources that it would require to create this database. Let the school districts spend their money on teachers and other resources as they see fit.

Please focus your energy on fiscal responsibility not unnecessary regulation!

Thank you!

Best,

Heather A. Franzese
