

I am writing you to urge you to vote NO to bill SB 874, which seeks to impose governmental control on homeschoolers.

My children are receiving a superior education in my home. When I first began homeschooling several years ago, I noted that the public schools had left them deficient in numerous subject areas including civics, writing, grammar, geography and foreign language. My children were also dissatisfied with their learning of science.

A bill that would seek to limit our freedoms is an unnecessary imposition on our rights as parents. Please vote "NO" on this bill.

Sincerely,

Dr. Margaret Fusina
