

Gov Lamont, Sen Looney and Duff,

I am born and bred in the state of CT, raised by a public high school principal and public middle school teacher. The state's mismanagement of pension funds is nothing short of criminal. And now your approach to unburden the state and problem you all created and mismanaged for years is to attack the municipalities by downgrading our schools, tanking our home values and diverting critical town funds up to the state level - NO WAY!!! I stand against your shifting of responsibility and burden to local municipalities and your direct attack on my kid's education, my town and my investments. There are no findings to say your plan has any merit and many more findings that prove the contrary.

Wilton is a town that has invested and taken immense pride in the strength of its schools and running its municipality responsibly and efficiently. We already pay a disproportionate amount in state taxes i.e. your salaries so as your employer, I am telling you NO, NO and NO! NO to **SB 874 SB 457 and SB 738!!**

**Jennifer Kendra**  
**Wilton CT 06897**
