Regarding SB 738, SB 457, SB 874

I strongly oppose SB 738, SB 457, SB 874. I also strongly oppose any attempts at forced by law requirement to regionalize school districts in CT. These bills do not make sense as one size does not necessarily fit all. Please do not try to fix what is not broken. These bills are a legislative over-reach that is dangerous and not needed, as it will not help the struggling districts and will for sure disturb the well performing ones. We do not need this kind of legislative interference in the affairs of our school districts.
