State of Connecticut General Assembly

Re: S.B 457, S.B. 738, S.B. 874

I would like to submit testimony that I am opposed to the Proposed Bills S.B 457, S.B. 738, S.B. 874 on the grounds that they will alter the New Canaan Public School System diluting the excellent standard of education my children receive and diminish my role as a stakeholder in my children's education.

I chose to live in the State of Connecticut and specifically the town of New Canaan based on the educational standards achieved historically, I believe imposing regionalization on the school system will dramatically lower the standard of education that can be offered to children resident in the town and as such lead me to consider whether the town and the State is somewhere I want to settle with my family.

Yours Sincerely

Joanne Lee
