Re: SB738, SB457, SB874

I am submitting this in opposition to the above three referenced bills regarding school regionalization, something that would punish successful school districts. As it is, New Canaan sends more money to Hartford than any town in CT except Greenwich and Stamford. This money funds less successful school districts. These bills are about social justice, redistribution, and power to the government. I am a schoolteacher and parent and strongly opposed. Thank you!
