Education Committee

Dear Education Committee,

We are writing this letter to express our opposition and dissatisfaction with the following bills:
SB 874, SB 457, SB 738.

These are all an excuse to continue to penalize Fairfield county and specific towns for the mistakes that are made over and over again in Hartford.

There was a time when Hartford politicians claimed that the state income tax was supposed to be temporary. What happened? It's shameful that a new administration wants to continue a similar pattern at our children's expense. There has been no evidence or studies presented to prove that this is better for our children. Like many in our town, we worked hard to move to Darien and did so because of the excellent education system it could provide for our children. Now some in Hartford are deciding to take that all away from us?

The hard working residents of Connecticut deserve better, we expect better and representatives in Hartford should take notice.

Sincerely,

Robert and Marina Meyers
