

My name is Caren Miller. I am a resident of New Canaan, Connecticut. I am a mother to two brilliant girls that proudly attend West Elementary School. The New Canaan Public School systems thrive because of the student-to-teacher ratios, the wonderful administrative staff and the dedicated teachers. Regionalization of school districts would eliminate teaching positions, reduce administrative staff and increase the student-to-teacher ratios. The New Canaan Public School systems excel because of the current systems in place. The current systems create a unified community. As a New Canaan, Connecticut constituent, I am against regionalization of school districts. The proposed legislations S.B 457, S.B 738, S.B 874 would do more harm than good.

Sincerely,

Caren C. Miller
