

Regarding CT Bills SB 738, 457,874 : "Keep your Hands off Our Schools".

I did not buy a home at higher cost and higher tax rate in Wilton CT so that someone in Hartford CT could devalue my property and investment on a whim and an unsubstantiated claim of saving money for the state.

How would you like if someone in lower Fairfield County proposed bills to consolidate land fills in the Hartford area where you live and one ended up effecting **YOUR** neighborhood!

I think these bills are ill conceived and irresponsible. I am a Democrat and your plan makes me want to switch to being a Republican.

You should be spending your time and effort trying to bring corporations **into** our state and increase jobs. That's where the **real** revenues will come from.
