Bill 457 and Bill 738

To Whom It May Concern:

Consolidating schools is a horrible idea and a money grab to take taxpayer dollars from the schools being consolidated and used for schools in the urban districts. Every town has its distinctive character, with different goals for the future. You will make it impossible for smaller towns to have input where their taxpayer dollars are going, or even having voice in their schools curriculum. I am definitely against consolidation.

Sincerely,
Stephanie Nelson
