

To Whom it May Concern:

Please vote NO on S.B. 874. Homeschooling parents should not be required to personally sign a registration form at their local school district office, and do not need access to model curriculum approved by the Department of Education. CT has been a wonderful place to raise a child, due in part to its continued excellence in recognizing the parents' rights to direct their children's education in a way that best meets the need of each child. Affirming S.B. 874 would be a significant step in erasing that recognition, and it is my sincere hope that CT will not move in that direction. Please vote NO on this bill. Thank you so much for your time.
