

Subject: Opposition to SB738, SB457, SB874

From: James Parenti, Town of Wilton

Dear Committee:

Many of your constituents (including us) are vehemently opposed to the proposition of School Regionalization.

Our family is one of many who have spent their life savings to move to a town with a good school system. If the proposal goes thru it will be one more example of the local government pulling the rug out from the struggling middle class who are trying to make a better life for our families.

This proposal also adversely impacts and disrupts all those involved since children will need to wake up earlier and return home later for the sake of being bused to another town.

I speak on behalf of many families in our community when asking to please not pass this proposal.

Respectfully yours,

James Parenti
