

February 27, 2019

Members of Education Committee:

I am a resident of the City of Shelton, with 1 child about to go into the public-school system. I am writing to voice my opposition to following raised bills:

SB 874 - An act concerning education initiatives and services in Connecticut

SB 738 - An act concerning the creation of regional school districts

SB 457 – An act concerning the size of school districts

I do not believe these bills are in the best interest of our children and families or our local school communities. Leave it to the towns and city to examine what is best for our local communities.

Sincerely,

Lauren Roberto
Shelton, CT
