

My name is Elizabeth Root and I live in South Windsor, CT.

I am writing because I oppose Sec. 17 and Sec. 18 of SB 874.

I fail to see the need to regulate and am unable to locate reasons proponents feel this legislation is necessary. It makes no sense that legislators vote to implement a new mandate for which there has been given no explanation by the proponents as to why it is necessary or even a reasonable idea.

A parent homeschooling their child gains no obvious benefit through registering with the

district and this proposed legislation represents nothing more than unnecessary oversight. It is important to preserve the freedom to educate one's child outside of the very system the parent has determined to be inappropriate for their child.
