

I am writing in opposition to the forced regionalization of schools in CT. I do not believe this policy would be in the best interest of students. Decisions regarding regionalization should left to the individual towns to determine what serves each community best.

re bills: SB 738 and Governor's Bill 874

It may well be that the cost of transporting the children across towns, the cost of revamping buildings to accommodate more children in a specific grade, the cost of moving supplies, etc. may likely outweigh any potential gain.

Thank you for considering my point of view.

Nancy Schwartz, Redding, Ct.
