

February 27, 2019

Dear Senators and Representatives,

Regarding Governor's Bill 874 to create a new Commission on Shared School services, are you kidding me?

We should create a Commission on Reducing Commissions in the state of Connecticut. This state does not need to create more commissions, but rather they should reduce the number of state commissions to reduce taxpayer costs! The proposed commission is loaded with union teaching representatives, school transportation representatives, school superintendents, numerous bureaucrats, and yes, a single parent of a student (lines 24-25)! These highly qualified individual people/groups that have given us the troubled city school systems are now prepared to wreak havoc on the smaller successful school systems. It is no wonder that people are leaving Connecticut in droves.

I urge you to vote against this bill.

Sincerely,

Joanne and Ray Slezycki

Lyme, CT
