

Dear Legislators on the ED committee

Please vote NO on S.B. 874. Homeschooling parents should not be required to personally sign a registration form at their local school district office, and do not need access to model curriculum approved by the Department of Education.

The present system (no required registration, no need to conform to CT's curriculum), which has been operating for the last 30 years has a stellar record, no need to change it.

One of the purposes of homeschooling is to be able to pick your own curriculum for your children, eliminating the harmful and misleading things that are taught in public schools.

So, leave things as they are. We don't need anymore govt. regulation!

*Yours, Dr. Stephen Wibberley
Canterbury*
