

I do not support Senate Bill 454/738. I do not support the Governor's budget bill SB 874.

I am against forced regionalization. I do not believe the above bills will lead to cost savings and I do not believe the above bills are beneficial to our children. Instead I believe they will impact housing values and degrade our schools making me immediately reconsider our choice to live in this state and town.

I will not support any candidate who supports forced, incentivized or otherwise regionalization.
