Bill #SB874

Dear State of CT,

As a parent of four young children currently enrolled in the Amity School system I am absolutely opposed to the regionalization of the Amity School system. We are already a regionalized school system with Orange and Bethany schools and as a result should not be subjected to redistricting.

The Orange, Bethany and Woodbridge region is a stellar school district that is already functioning as a successful three town district. Many families have been drawn to the towns of Orange, Bethany and Woodbridge seeking the education offered by the Amity district. To compromise the integrity of the district would have negative impacts on all three towns.

I strongly oppose the redistricting of our school system. Please look at other avenues of ways to save money that are not at the expense of our children, the future of Connecticut.

Daniel Zaleski, Woodbridge, CT
