Explanation

The bill allows towns with a population of less than 50,000 to be served by a regional animal control facility.

To the extent this bill facilitates the sharing of animal control facilities, a savings may result to participating municipalities.

There are currently 68 towns that have their own facility, 27 facilities that are shared, and 15 towns that use a commercial kennel.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to inflation and the actual costs of operating municipal dog pounds.
