Note: GF=General Fund

Municipal Impact: None

Explanation

The bill requires the Department of Social Services (DSS) to provide Medicaid coverage for donor breast milk under certain circumstances. If this is covered under the department’s existing payment rate structure, it is not anticipated to result in an impact. To the extent the bill results in a separate reimbursement method, the department could incur a cost. The actual impact will depend on the number of infants in need of donor breast milk and the coverage limits established by DSS.

House “A” strikes the language in the underlying bill and results in the fiscal impact described above.

The Out Years

The fiscal impact identified above will continue into the future subject to the Medicaid coverage established and utilization.
