</table>

Explanation

The bill results in a potential redistribution of how a priority school district spends their priority district grant, if they do not show performance index improvement by FY 22. The bill also requires priority school districts to conduct a program evaluation of how priority school district funds are spent, which is not anticipated to result in a fiscal impact.

Additionally the bill requires the Connecticut Technical Education and Career System (CTECS) to identify and develop a list of career in critical construction trades that are essential to the needs of the state. The CTECS are also required to a plan to create or expand existing programs to meet the identified needs. These requirements result in no fiscal impact as the CTECS have sufficient expertise in the construction trade area.

Senate “A” strikes the underlying bill and its associated fiscal impact and replaces it with the fiscal impact described above.
The Out Years

State Impact: None
