

My name is Terry Blank and I am a resident of Stamford Connecticut. I'm writing to ask you to support early voting bill number HJR 161. I volunteer every two years to get out the vote for local and national elections. Each time I come across many citizens who cannot carve out time on a busy Tuesday to get to the polls. I've been repeatedly told that they would like to be able to vote on a weekend like most other states allow.

Connecticut needs to encourage our citizens to vote by making it easier. Please consider your citizens wishes to have greater access to voting by supporting bill number HJR – 161.

Sincerely

Dr. Terry Blank
