

The voting system should not be confusing, cumbersome and full of changes voting should be pretty straight forward. Eligible individuals have more than ample time to register prior to any election and those who are not eligible also have ample time to become eligible prior to any election there is no need for any added confusion at any polling station on election day nor anytime prior to any election. SB 1046,SJ 27,SJ 28,HB 6059, HJ 161 in my opinion does just that. I ask you to oppose these bills let us rather focus on simple uniformity and assuring the verification of each eligible voter.
