

You are stealing the election if you allow this

You can find many cases where the law is broken using early voting and absentee voting. Here is just one story in CT from 2015

" The state's attorney alleges that Mallozzi forged 14 absentee ballots in the 2015 election, in which candidates such as Briscoe ran for seats on the Board of Representatives, Board of Finance and Board of Education. According to Mallozzi's arrest affidavit, his handwriting matched that of signatures on 14 absentee ballots assigned to voters who had not requested them."
