Honorable committee members:

I appose legislation limiting a landlords ability to screen tenants for criminal records. Being unable to do so jeopardizes the safety and welfare of all properties in CT. The general public should have the right to know who is living next to them.

They should have a right to the opportunity for the most safety possible. A landlords inability to accurately screen higher risk tenants severely infringes upon the safety of the public at large and it should not be the responsibility of a landlord to provide higher risk populations

housing. The track records of previous criminals going back to their old ways is much higher than the general public and should not be hidden from landlords.

thank you,
