My name is Chandler Boutin, and I oppose the new legislation allowing criminals to get housing without the landlords knowing about their record. There must be a better way to give these people a second chance without endangering my family and others. My family lives in a recently purchased two family home, and we are working to rent out the downstairs. I would feel so uncomfortable trying to pick somebody without knowing their background. They did the crime, its their responsibility to carry that around. For the safety of homeowners and their families, please don't pass this legislation.
