Subject: Bill #5713 & Bill #54

As a Landlord of 9 units in several Connecticut towns, I am very concerned about the proposed bill trying to get passed concerning the ability to screen our tenants pertaining to their criminal past. I oppose any Bill which limits our ability to properly screen an applicant's criminal past. It is not fair to Landlords or to other tenants, neighbors and the community in which we live.

Please be advised that I strongly oppose any Bill that will endanger the public's Health, Safety and puts property owners and their tenants at risk! Please take into consideration the ramifications of ALL, and not just the tenants.

Thank you for your time,

**Kristine Gasque
