Subject: HB 5713 and HB5712 opposition

I am currently the owner of 23 apartments in Connecticut. I have successfully rented to people with problems in their past, but I did so knowingly. I do not appreciate laws like this that would potentially blindside me and my current tenants. My application requires the contact information for the applicant's current landlord and their previous landlord. I also contact their current and former employers and their personal references.

Laws like this discriminate against landlords and deny us our right of informed consent.

Sincerely,
Cheryl A. Reynolds
Deep River, CT 06417
