Proposed Bill # 5712 - Against

Information should not be sealed. If someone has made a mistake in their life, that is fine, we are only human. Instead of hiding a past, they should show on an application, or by other means what they have done with the years since their conviction.

Proposed Bill # 54 - Against

All information should be available.

Proposed Bill # 5713 - Against

Requiring a landlord to offer a place to rent before learning a tenants "civil resume" omits crucial information from the decision making process and puts the cart before the horse. This opens one more avenue of discrimination against a landlord based on a personal potential history. The only people who would reasonably want this bill to pass is those who have criminal records. Actions always speak louder than words to me. If a potential tenant has a history, work on rebuilding, not covering. This defies the very essence of growth and forgiveness.

Thank you,
