I am a pediatric dentist from Fairfield, CT who treats numerous Husky patients. It breaks my heart when my Husky patients lose insurance coverage at 21 y/o. The state has an obligation, no different than any other insurance company, to cover dependent minors beyond their twenty first birthday. I implore the state to expand Husky coverage beyond a dependents twenty first birthday. This coverage must be at the same financial compensation as those twenty one and younger or else these patients will have extremely limited access to care.

Thank you,

Gregory Mokotoff DMD
