Hello,

Testimony for HB 7218 from Iris Festa - Guilford, CT

Pass Ethan's Law now! Every life is worth saving so if this law prevents one tragic death then you have done your part. As an educator, I have seen the easy access some kids have to deadly weapons just because the adult in the home doesn't deem it necessary to store it appropriately. Ethan's death could've been prevented so let's pass this law and prevent other children from crying a tragic and senseless death.
