Hello,

Testimony for HB 7218 from Liza Rivera - Guilford, CT

Pass Ethan’s Law!

If we, in fact, care about our children then there should be no question on passing a common sense gun law that requires safe storage of a firearm in order to prevent future tragedies.

I personally knew Ethan. I first met him when he was 5 years old. I remember fondly how his bright blue eyes danced once he took a look at the spiral staircase in my home. The stairs instantly became his playscape. Through my years at his Dad’s company I watched him grow. He was a young man full of life – he wasn’t afraid to be unique and had a compassionate heart for those less fortunate. The dog whisperer, as he was known, helped his parents foster many dogs and cats in hopes of finding their forever homes. The world will never how much more we would’ve been impacted by Ethan because his life was cut short in a preventable tragedy.

Warm Regards,

Liza Rivera | Director of Training Logistics | GetControl.net | 203.533.5700
