Hello,

Testimony for HB 7218 from Maritza Rosario - North Branford, CT

As an educator - I support Ethan's Law. I've seen and heard how easily children have been able to access guns without adult supervision. In some cases this has ended in tragedy and in others it could have ended tragically. All those that choose to bear arms should also be required to store the weapon appropriately. Pass Ethan's Law and let's prevent tragic deaths.

Thank you
