I am writing to show my support for Ethan's Law/ Bill number HB 7218.

On January 31, 2018 Ethan Song was killed by an unsecured gun. Ethan was a beautiful, smart young man with a bright future.

Not being a gun owner myself I have had a difficult time understanding why someone would not secure their guns in their homes. Owning a firearm is a right, but the owners of these firearms must take full responsibility of storing them in a safe manner in their homes.

Passing HB-7218 may prevent something so tragic from happening in the future.
