To the Judiciary Committee: I am a CT and US citizen in support of the the above bills which would protect the public and would promote responsible gun ownership. These bills, which cover safe storage of guns, storage of guns in motor vehicles and prohibition of ghost guns, in no way take guns away from those who feel gun proposals usurp their rights to own guns. For those who own guns, these are sensible, easily doable ways to make it safe for us all. Have we not had enough tragedies in this State to warrant passage of these bills!!

Thank you for your consideration of my testimony.
