Judiciary Committee:

Please Oppose HB 7219.

This bill would prevent the Hobbyist from building his or her own firearm, for their own use. This is a popular activity among talented individuals, and these firearms are virtually never used in the commission of a crime. They require much too much work and expense. There are already in place, many laws regulating the transfer of non-serialized firearms. Passing more laws, most of which are never enforced, will do nothing to reduce crime, and will make criminals out of law-abiding citizens.

Historic Firearms are frequently not serialized, preventing the collector from working on his own collection makes nobody safer.

I urge you to Please Oppose HB 7219!

Thank you,

Chas Catania
