I am writing to express my support of HB 7219 which bans “ghost guns.” The only logical purpose of 3-D printed guns is for illegal use. It makes dangerous weapons more easily available to those with criminal intent. Legal gun registration serves to protect the law-abiding community, so any attempt to circumvent it needs to be stopped. Please vote to ban guns sold in a form requiring the purchaser to finish assembly or that are homemade or 3-D printed.

Respectfully submitted,
