Subject: H.B. 7219 Ghost Guns.

Members of the Judiciary Committee, I live in the town of Bloomfield CT. and a current member of the Windsor Marksmen's Association. I am opposed to the addition of pre. 1968 guns without serial numbers included in your bill. Including pre. 1968 guns in this bill would create a serious hardship to legal gun owners who have a few of the .22 rimfire in their possession and just use them for youth training and pinking. I would strongly suggest removal of this from the current bill or make an amendment to grandfather current ownership of pre. 1968 guns without serial numbers.

Thanks for your consideration on this issue.
