Subject: 3-11-19 Gun Bills

To Whom it may concern,

I am writing to voice my OPPOSITION to the following proposed bills.

H.B 7219: This legislation has the potential to create felons out of the simple possession of metal used in machining processes. Additionally the home manufacturing of firearms is regulated federally. Does the state plan to ban blocks of metal and round stock as well?

S.B 60: This is a form of stop and frisk.

H.B 7223: This is redundant as there are already existing laws that cover the storage of a pistol or revolver in an automobile.

I offer no position on the following: HB 7218

I offer support of the following:

S.B 940

H.B 5227

H.B. 5870

Thank You,

Michael LaBouliere
