State of Connecticut
Judiciary Committee

Dear Committee Members,

Thank you for taking the time to read our testimony regarding S.B. 60. We are in *opposition* of this bill. By removing the words "reasonable suspicion of a crime" allows law enforcement to stop you for absolutely no reason simply because you have a holstered firearm. This will cause severe profiling of people of color and anybody else that may fit in to racial profiling. This bill is unacceptable and we urge you to oppose it.

Thank you,
