Subject: SB3 act

My name is Andrew Brian Aspinwall. I am writing this letter as a Victim of a sexual Assault/Molestation by Father Charles Manning. Father Manning was transferred from Montreal to Sacred Heart on suspicion of touching the Alter boys in a sexual manner in the parish.. The incident with me happened as I was an Alter boy for Sacred Heart. Year 79. My law suit was settled by the Reardon Law Firm New London Conn. I am speaking to increase the years you have to report a sexual molestation. In the Cases with the Catholic church you as a Victim were a child, and even in my case I told my Confirmation teacher and they stated He just likes to hug, Those words were like a knife cutting thru me. I knew at that young of an age there was no hope.. The power of the white catholic collar was no one to go up against. In the eyes of the Catholic Church if you accused one you accused the whole church. I lived in fear for many years, That retribution would be upon me by God. How would my friends see me if I come forward.. My family would be crushed. These are burdens a child should never carry. I ask this of you that have the power to change the years to report that it's not about the money, it is about releasing the shattered child of a sexual molestation by a person who you and your family trusted as a spiritual leader and teacher of the Gospel. Letting the Victims come forward into a court of law to be heard will release that shattered child and let the adult grow..Forgivness can only be reached until all victims are heard.. Let all victims come forward no matter what age.. Thank you for your time. Andrew Brian
