I am writing this letter to whoever will take the time and courage to make a absolute necessary change in law. I am 41 years old and was molested by a catholic priest when I was 10 years old. I started drinking and using drugs by the age of 12. I have been sober for several years now and all of this is now coming out. I was in a vegetative state for over 25 years because of the abuse. I am lucky I came out of it and have joined in this fight. Others to find it in themselves to come forward may take a lot longer than I did. There needs NOT to be an age limit for the SOL. Please let everyone who had been destroyed the ability to come forward and join in the fight against the evil that has taken place in there lives.
