Legislative Office Building, Room 2500  
210 Capitol Avenue  
Hartford, Connecticut 06106

The Honorable Rep. Steven J. Stafstrom  
Co-Chair, Joint Committee on Judiciary  
Legislative Office Building, Room 2500  
210 Capitol Avenue  
Hartford, Connecticut 06106

**Re: SUPPORT for SB 505, Testimony from American Atheists in support of legislation to prohibit female genital mutilation**

Dear Senator Winfield, Representative Stafstrom, and Members of the Joint Committee on Judiciary:

American Atheists, on behalf of its more than 500 constituents in Connecticut, writes in support of SB 505, a bill which will protect women and girls in Connecticut from the harmful practices known as female genital mutilation (FGM). Connecticut is one of just 22 states that does not prohibit FGM. We urge you to swiftly remedy this situation by passing this critical legislation.

American Atheists is a national civil rights organization that works to achieve religious equality for all Americans by protecting what Thomas Jefferson called the "wall of separation" between government and religion created by the First Amendment. We strive to create an environment where atheism and atheists are accepted as members of our nation's communities and where casual bigotry against our community is seen as abhorrent and unacceptable. We promote understanding of atheists through education, outreach, and community-building and work to end the stigma associated with being an atheist in America. As advocates for the health, safety, and well-being of all Americans, American Atheists objects to efforts to subordinate medical care to the religious beliefs of others.

FGM, which is the ritual cutting or alteration of female genitalia for non-medical purposes, is predominately forced upon young females and performed by non-licensed practitioners. SB 505 establishes that FGM performed upon minors is a class D felony allowing the prosecution of practitioners. Moreover, the bill clarifies that beliefs regarding customs and rituals (whether of a minor or another person) are not appropriate defenses.

Although FGM is often performed as a traditional practice in some cultures, these procedures have no medical necessity or benefit. Instead, FGM frequently results in serious injury to the victim as well as a host of serious medical complications. In addition to the devastating physical consequences, FGM can result in significant psychological harm. In a 2016 report, the US Government Accountability Office stated that the Centers for Disease Control and Prevention (CDC) estimated that 513,000 women and girls in the United States were at risk of or had been subjected

to FGM.<sup>1</sup> In Connecticut, more than 2,600 women and girls are at risk for FGM.<sup>2</sup> It is essential that states increase their efforts to oppose FGM, especially after the recent court ruling calling into question the constitutionality of existing federal laws prohibiting these practices.<sup>3</sup> Connecticut has a duty to protect its residents from these dangerous practices regardless of tradition. This sort of religiously inspired and brutal misogyny has no place in our society.

Thank you for holding a hearing on this life-saving measure. We urge you to act swiftly to pass this legislation to protect women and girls in Connecticut from FGM. If you should have any questions regarding American Atheists' support for this legislation, please contact me at 908.276.7300 x9 or by email at [agill@atheists.org](mailto:agill@atheists.org)

Sincerely,

Alison Gill, Esq.  
Vice President, Legal and Policy  
American Atheists
