Subject: My Thoughts against Female Genital Mutilation

To our Legislators,

I am an adult female. I have learned about this brutal and disgusting practice from third world countries and I would like to say this is pure insanity!!! Sexual pleasure is a gift from God for both men and women. Who in their right mind would condone this or propose we do it in this Country ???

Let us suggest that we first begin with MALE mutilation and see how far it goes.

Please vote to prohibit this heathen practice from our Country!
