

Committee Members:

Today I am writing to express my concern with HB7005 and to OBBOSE it.

First, I ask that this bill be killed because there is clearly no need for it. The law is currently sufficient.

Furthermore the requirement of a clergy signature is an appalling attack on my 1st amendment right; freedom of religion. It is clear discrimination and flat out unconstitutional to anyone who's religion does not recognize clergy. We must continue to protect our citizens by continuing to separate church and state.

Thank you for your protection of my 1st Amendment rights by killing this bill,
