

To Members of the Childrens Committee:

As a concerned citizen of the United States of America, I oppose bill HP-7005 because it is in direct conflict with Constitution and my religious beliefs directly.

This bill violates on our rights as Americans as Church and State should always be unrelated. The government should never have the power in making choices for everyone as a whole, ESPECIALLY regarding decisions parents make on or behalf of their children.

Please take into consideration how this bill will affect your constituents and take away their rights as American citizens, no matter their religion. I strongly disagree with this bill and hope you reconsider your position.

Sincerely,  
Jolene Hartford County
