

Good morning,

I oppose HB 7005; this proposed bill is unnecessary, discriminatory and unconstitutional.

Clergy is not God. Some religions don't have clergies and to add this it discrimination for those who don't have clergy in their religion. People have a right to practice what they believe is their religion as so do you. Every person interprets their religion differently and having a clergy acknowledge is violating private health records.

Please kill this bill. Us citizens believe it's our right to exercising our rights under the US constitution to our genuine and sincere beliefs which are contrary to the practices which are herein required. Any bill that violates our constitutional rights, freedom and violates religion is unconstitutional.

Removing a nurse from acknowledging is not a good move since they protect children's medical records in school setting and for those who have good relationships with their nurses not ALL nurses are refusing this acknowledgement.

Separating Of Church and State from Thomas Jefferson, "Believing with you that religion is a matter which lies solely between Man & his God, that he owes account to none other for his faith or his worship, that the legitimate powers of government reach actions only, & not opinions, I contemplate with sovereign reverence that act of the whole American people which declared that their legislature should "make no law respecting an establishment of religion, or prohibiting the free exercise thereof," thus building a wall of separation between Church & State. "

Thank you for respectfully adhering to our first amendment rights guaranteed as citizens of the United States of America by her great Constitution, reinforced on a state level by the fourteenth amendment without prejudice and Universal Declaration on Bioethics and Human Rights (2005), articles 3(2) and 6(1) are relevant.

I hope you take into consideration to protect the privacy.

Blessings,

Alise P
