

February 5th, 2019

Dear House Members,

I am writing in opposition to proposed House Bill 7005. I feel like this bill leaves the door too open for altering CT residents' legal rights to Religious Exemptions to Vaccination through what is widely known as legislative creep. We have a constitution for a reason. It is to protect the rights and freedoms of its' citizens. We already have residents leaving CT in droves over taxes, debt and tolls. Taking away our freedoms to be secure in our persons and our children as protected by The Constitution is not going to help the state of CT. Kill this bill. We do not need it.

Sincerely,

Erich Simo
Madison, CT
