

To whom this may concern,

I am writing to you in regards to bill HB 7005. I want you to vote no against this bill and any bill that makes any requirements in regards to medical choice and vaccination requirements. It is my choice for my body and my family and that choice does not belong to the government. I am a father and believe that any bill regarding rules for a free citizen to have to follow regarding what is injected into my body violates my human and constitutional rights.

Vote no on HB 7005

Thank you for your time
